NAISSEN CHEBBI Data science & AI Engineering student

PROFILE SUMMARY

Data Science & AI Engineering student with hands-on experience in **machine learning**, **NLP**, **LLMs**, and **RAG**-based applications. Experienced in building AI-powered solutions using **Python, FastAPI, Docker, and CI/CD pipelines**. Seeking a graduation internship (PFE) starting February 2027, with a focus on applied AI and machine learning research.

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ- 900) — 2026
- Intermediate R ,DataCamp — 2026
- Foundations of Probability in Python , DataCamp — 2022
- DELF B2 — 2022

LEADERSHIP & ACTIVITIES

EEE ESSTHS Student Branch

- Treasurer | 2025–2026
- Logistics Chief, IAS TAM 3.0 Congress | 2023–2024
- Vice President, Business Department | 2022–2023
- Active Member | 2022–2023

Sécurinet ISITCom — Active Member | 2021–2022

LANGUAGES

- Arabic (Native)
- English (Fluent)
- French (DELF B2)
- German (Beginner)

EDUCATION

3nd-Year in Computer Engineering Student, *Polytechnic School of Sousse* — Current

Bachelor's degree in Computer Science, *Higher Institute of Computer Science and Communication Technology of Sousse (ISITCom)* — 2021 - 2024

High School Diploma in Experimental Sciences , *Othmen Chatti High School, M'saken* — 2021

PROFESSIONAL EXEPERIENCE

WEB DEVELOPMENT INTERN LEONI TUNISIA **Aug 2023**

Designed and customized websites using **WordPress**, enhancing user experience and site functionality. Built custom features with **HTML, CSS, and PHP**, and extended capabilities through WordPress plugins.Learned **Scrum methodology** and adapted to professional workflows.

FULL-STACK DEVELOPER INTERN LEONI TUNISIA **Feb 2024 – May 2024**

Developed a web application for social service data management, delivering efficient data processing solutions. Designed and implemented real-time chat functionality using **WebSockets** for seamless user interaction. Led the end-to-end development process, ensuring a user-friendly experience across both front-end and back-end. Built with **Angular, Spring Boot, Express.js, Socket.IO, and MySQL.**

WORKPLACE ACCIDENT REPORTING & TRACKING PLATFORM , LEONI TUNISIA **Aug 2026**

Developed a smart web platform for workplace accident reporting, tracking, and analysis.
Built a **Django REST API** with **JWT authentication** and a modern **Next.js** frontend. Modeled a **PostgreSQL** database and integrated **SMTP/SMS** notifications for real-time alerts. Integrated the **Gemini API** for automatic incident analysis and corrective action suggestions.

PERSONAL PROJECTS

HealthGuide-TN — Multilingual Voice-Enabled RAG Assistant **(Academic Project — In Progress)**

Developing a multilingual AI assistant for accessible health information using Python, Whisper and LLMs, integrating Tunisian Derja/Arabizi normalization, multilingual embeddings, hybrid retrieval and evidence-grounded generation with confidence-aware responses.

MYCAREER — AI CAREER ASSISTANT **Sep 2026**

Full-stack AI application using **React, FastAPI, and Groq-hosted Llama 3**; **RAG pipeline** with **Sentence Transformers embeddings** and **ChromaDB** for semantic retrieval, source-grounded answers, and automated information ingestion. Deployed using **Vercel** and **Render**, with **GitHub Actions CI/CD.**

CREDIT CARD FRAUD DETECTION — END-TO-END ML PIPELINE **Aug 2026**

Machine learning pipeline on 284,807 transactions with a 0.17% fraud rate; compared four classification algorithms using **Scikit-learn**, **XGBoost** and **SMOTE,** achieving 0.984 **AUC-ROC** and 0.86 **recall** with **Random Forest; FastAPI** deployment, **Docker and GitHub Actions CI/CD** deployed on **Render.**

AI-powered computer vision application **Current**

using **Python, PyTorch**, and a pretrained **U-Net** for lung **segmentation** in chest X-ray images; image preprocessing, **deep learning inference, and segmentation** evaluation using **Dice Score and IoU**. Full-stack implementation with **Flask and React**, featuring interactive **mask visualization** and **inference results**.

TECHNICAL SKILLS

Data & AI: LLM Integration (Groq), RAG,NLP, Scikit-learn, TensorFlow/Keras,LLMs, embeddings, vector search, Machine Learning
Programming Languages: C/C++, Python, Java, JavaScript/TypeScript, PHP
Web & Mobile: Flutter, Angular, React, Node.js, Spring, Symfony
Data science and MLOps : Pandas, NumPy, Matplotlib, FastAPI, Django, CI/CD, Model Deployment
DevOps: Docker
Databases: MySQL, SQL Server, MongoDB, NoSQL , Postgres
Tools & Methodologies: Git , GitHub , Postman , Jupyter Notebook , Scrum Agile , UML , VS Code , IntelliJ IDEA , Figma
